Introduction

1985 to 2021

THE SKI CHALLENGE completed its 36th season this past winter. With an unprecedented pandemic going on, we were relieved that we were still able to have somewhat of a season. Our program had to be modified with on awards ceremonies or gatherings. Racers were still able to compete with a few restrictions. All results were posted online as soon as possible.

The Ski Challenge began in 1985 as a Twin Cities Metro Area recreational ski racing program allowing adults to ski on teams in leagues, similar to softball or bowling leagues. Approximately 35 members raced in the first year of the program, today close to 1,000 racers of all ages participate in the leagues and as guests throughout the season. The Ski Challenge has evolved into the finest and largest team oriented recreational ski racing experience anywhere! As far as we can tell it is the largest league of its type anywhere in the world! Ski Challenge's size and long time commitment of its members is testimony to the exciting racing and quality experience that it provides.

THE SKI CHALLENGE has more than than 100 events planned for the 2021-22 season. Twelve ski leagues at two ski areas will be offered for the upcoming season at Buck Hill and Wild Mountain. Each league consists of anywhere from 5 to 16 teams, with 10 racers per team. The regular season starts in January with races being held once a week for seven weeks. Other various non-league events will also be made available at both Buck Hill and Wild Mountain. All of our leagues welcome both adults and participants under 18. The season culminates with a championship race weekend at Giants Ridge which includes both team racing and individual racing.

What is the SKI CHALLENGE? “Serious Fun!”

Members ski through dual timed modified giant slalom race courses during each event to earn a handicap, medal, and score team points. A standardized handicap system is used to determine the handicap. That handicap is plugged into a Ski Challenge specific chart based on gender and age to determine medals and team scoring. The teams meet for socializing, awards, and door prizes after each event. No racing experience is necessary to participate in and enjoy the Ski Challenge.

Weekly printed results show team and individual standings along with Challenge news and information, sponsor information and advertising. This information can also be found on the web site. Individual scores are sent into NASTAR for each participant to gain a national ranking. The seven week League series is followed by a series of Championship events in which every member is eligible to participate. An individual championship event is also held which honors the fastest in each age group.

The Ski Challenge leagues are fun for the beginner, yet challenging for those seeking serious competition. The emphasis is on enjoying the sport and the camaraderie of fellow skiers. Most members join to have a reason to ski more, to meet with friends, and enjoy a healthy winter activity.

Ski Challenge sponsors and areas enjoy the benefits of high exposure to a direct target market through their association with a program that has a proven track record and outstanding reputation.

Summary

Membership

Teams Regular Season Buck	82
Teams Regular Season Wild	26
Total Teams - Regular-season	108

*Note: Buck Hill Friday and Saturday leagues were cut out in 2019. This made a huge impact on our numbers which also affected our Championship numbers. We had less teams to draw from for Championships at Giants Ridge. Also, we had no pre-season events this year due to the pandemic.

Racers Starts for Regular + Preseason Leagues

Racer Starts for Regular + Preseason:

- 2001 - Added Wild Mountain Sunday DAY
- 2003 - Added Buck Hill Monday
- 2004 - Discontinued Hyland Monday
